

The geography of industrial production

Baseline · medium CE · global | 2019–2050

○ 2019 ◆ 2050 (sector colour)

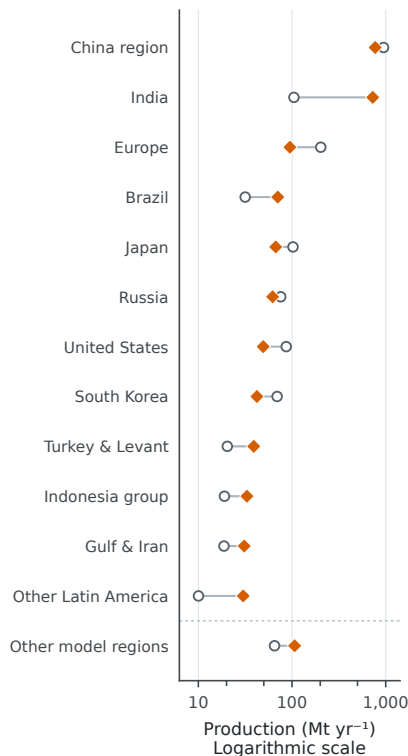

a Cement

Top 12: 85.4% of 2050 output

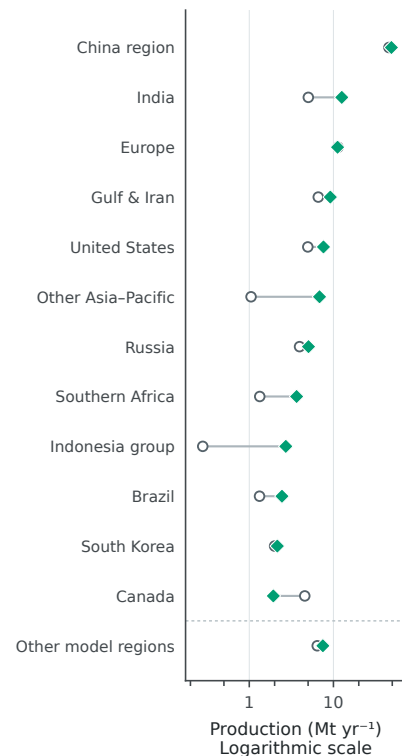

b Iron and steel

Top 12: 95.0% of 2050 output

c Aluminium

Top 12: 93.8% of 2050 output

Europe combines five model regions. Indonesia group = Indonesia, Philippines and Viet Nam.

Draft assumption: blank activity values = zero; reported prices and intensities retain gaps.
